Powerful Search

Search for your patients, or patients belonging to other providers in your practice. See your patient's entire exam history to access the report and images you want.

Download and Print Reports

Print or download the patient report so that you can include it in the patient's EMR record.

Image Viewers

View full DICOM images directly within your browser. Use convenient window-leveling, measuring, and scrolling controls.

Reports

View reports directly within the portal, as soon as they are completed and signed.
