## Powerful Search

Search for your patients, or patients belonging to other providers in your practice. See your patient's entire exam history to access the report and images you want.

## Download and Print Reports

Print or download the patient report so that you can include it in the patient's EMR record.

## Image Viewers

View full DICOM images directly within your browser. Use convenient window-leveling, measuring, and scrolling controls.

## Reports

View reports directly within the portal, as soon as they are completed and signed.
