Powerful Search
Search for your patients, or patients belonging to other providers in your practice. See your patient's entire exam history to access the report and images you want.

Image Viewers
View full DICOM images directly within your browser. Use convenient window-leveling, measuring, and scrolling controls.

Download and Print Reports
Print or download the patient report so that you can include it in the patient's EMR record.

Reports
View reports directly within the portal, as soon as they are completed and signed.
